

ULTRACUT

DUOWELD™

**INNOVATION
RELIABILITY
QUALITY**

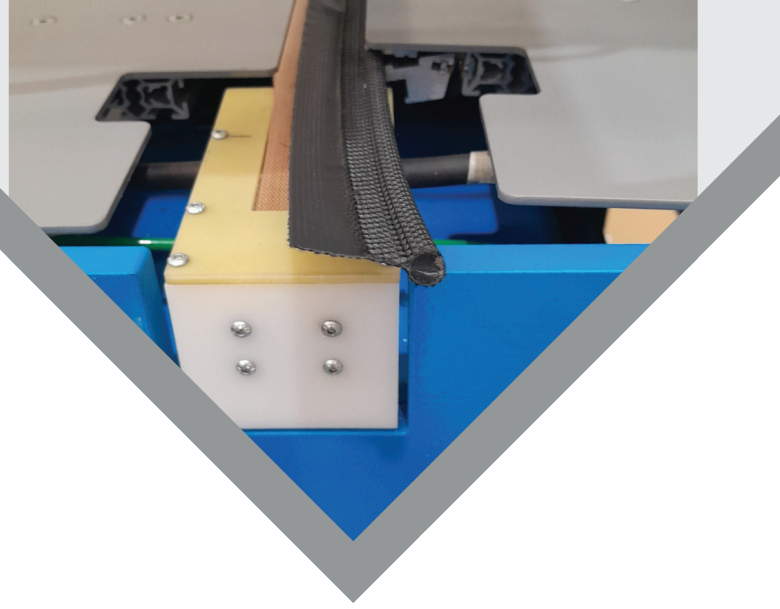

- ABILITY TO EASILY SWITCH FROM 10mm TO 20mm WELD AT THE PUSH OF A BUTTON
- AUTOMATIC OFFSET AND ALIGNMENT JIG FOR KEDAR AND ZIPPERS
- STREAMLINE YOUR WELDING PRODUCTIVITY
- MORE CONSISTENT WELDS EVERY TIME
- OPERATOR FRIENDLY

the Duoweld in action!**

DUOWELD™

IMPULSE WELDER

SOLUTION

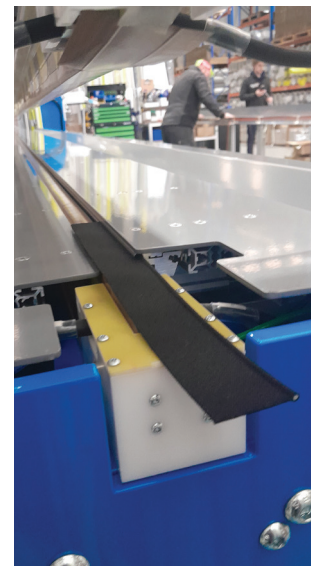

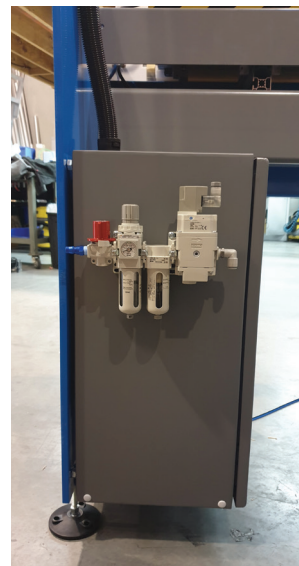

- Patented Design Dual Width (10mm / 20mm) Impulse welder.
- Easily choose between 10mm or 20mm wide welds at the touch of a button**.
- Patented Automatic multifit Kedar / Zip clamp with Size and Offset adjustment via touch screen.
- Kedar Clamp with quick release allows operator to pull jobs out forward after welding - No need to slide out of machine*.
- Save all your job settings for each type of weld, kedar/zips and material**.
- ActiveWeldSense™ technology ensures more consistent weld results .
- *Requires less floor space.
- **Save valuable operator time.

PRODUCTIVITY & EFFICIENCY

- 3 Sizes of weld capacity available: - 3.2mtr (10'6")/ 6.4mtr (21')/ 8.0mtr (26'3")
- Kedar / Zip, Hem, Join and Pocket functions Standard.
- 7" Colour touch screen with easy to program set-ups for each material and weld type which can be easily saved.
- Rigid Steel RHS construction for superior long length welds.
- Precise microcontroller heat control for different materials ensures consistent weld quality.
- Made in Australia with local support.

SPECIFICATIONS

- Duoweld 3.2 metre capacity weld (approx. 10' 6")
- Duoweld 6.4 metre capacity weld (approx. 21' 0")
- Duoweld 8.0 metre capacity weld (approx. 26' 3")
- 100psi clean compressed air.
- 3 Phase / 20 AMP Max / 10 kw / 380 - 480v
- Machine is supplied with transport wheels for easy positioning.

FOOTPRINT

3.2 Metre Duoweld

- Footprint 3.8* metre x 1.3 metre (approx. 12'5" x 4'3")

6.4 Metre Duoweld

- Footprint 7.0* metre x 1.3 metre (approx. 23'0" x 4'3")

8.0 Metre Duoweld

- Footprint 8.6* metre x 1.3 metre (approx. 28'2" x 4'3")

*Includes removable delivery wheels - 0.4 metres (approx. 3'4")
